PROFESSIONAL SUMMARY

Web developer with around 2 years of practical experience building responsive websites and database-driven web applications. Hands-on with PHP, MySQL, JavaScript, HTML, CSS, Bootstrap, Laravel fundamentals and REST API integration. Familiar with CRUD workflows, session-based access control, debugging and Git/GitHub. Currently undertaking a remote Web Development Internship with Codveda Technologies.

TECHNICAL SKILLS

Programming Languages	PHP, JavaScript, HTML5, CSS3
Frontend Development	Bootstrap 5, Tailwind CSS, Responsive Web Design, DOM Manipulation, Form Handling, Basic Vue.js
Backend Development	Core PHP, Laravel Fundamentals, CRUD Operations, Session Management, Authentication Fundamentals, Form Validation
API & Integration	REST API Integration, JSON, API Testing Fundamentals, Third-party API Integration
Database Management	MySQL, SQL, Database Design, Relational Data Handling
Tools & Environment	Git, GitHub, Visual Studio Code, XAMPP, phpMyAdmin, npm
Additional Technologies	Next.js, Prisma, Basic React.js Concepts

EXPERIENCE & TRAINING

Web Development Intern — Codveda Technologies | Remote | October 2026 – Present
- Selected for a remote internship focused on practical web-development assignments.
- Work spans static websites, portfolio development, JavaScript interactivity, responsive layouts and frontend-framework projects.

Web Developer — NextGen WebLabs | Project-based | Current
- Build responsive website pages and business-facing sections using HTML, CSS and JavaScript.
- Work on PHP-based functionality, database-driven features and API integration tasks as needed.
- Use Git/GitHub to manage source code and support website development workflows.

Web Development Training — IT Lab Solutions Ltd. | Course Completed
- Completed web-development training and practiced frontend fundamentals, PHP/database concepts, debugging and project-based workflows.

Backend Development Internship — DevConnect Platform | Practical Training
- Completed backend-focused practice tasks and developed familiarity with server-side workflows and API-related concepts.

SELECTED PROJECTS

ERP Management System | PHP, MySQL, Bootstrap
Business workflow application covering stock in/out/returned tracking, sales, paid/due tracking, client records and daily/date-range summaries. Includes admin/staff role concepts.

Community Events Board | Next.js, JavaScript, Tailwind CSS, MySQL, Prisma
Database-backed events board for event discovery and community event management, currently in development. GitHub: github.com/imdipthodurjoy/community-events-board

Student Management System | PHP, MySQL, Bootstrap
Student and department management features with admin login, CRUD operations, database integration and session-based access control.

NextGen WebLabs Website | HTML, CSS, JavaScript
Responsive company website with service, project, team and pricing sections. Source code managed with GitHub.

Personal Developer Portfolio | HTML, CSS, JavaScript
Responsive portfolio presenting development skills, selected projects and contact information.

CORE STRENGTHS

Problem-solving • Debugging • Responsive Design • Database Workflows • API Integration • Team Collaboration • Continuous Learning
